lst. It is of Southern manifacture, being made by the subscribers in the city of Nashville. 2d. It is of such durable materials that it must out-last 2d. It is more complete in its cooking apparatus than any east iron rooking stove. 4th. It is so simple in its construction that a child can 5th. Its economy of fuel is such, that it does not use half

For the cure of Painful and Disordered Menstruction, Miscarriage or Abortion, and the relief of all these 5th. Its economy of incl is such, that it does not use half as much fuel as a cast iron stove of the same size.

6th. In the economy of time it is important, as it can be heated ready for cooking in a few minutes.

7th. Its uniform regularity, as every part of the stove is equally heated at the same time.

5th. Its perfect reliability, as we have put up over four hundred of them in this State, and no one has ever failed to rive cotting satisfaction. Miscarriage or Abortion, and the relief of all these Sympathetic Nervous Affections attendant on Pregnancy.

Much of the suffering attendant upon the lives of females at the present day may be traced to some slight impradence or neglect during some critical period of their pseuliar seasons, causing obstructions, irregularity, &c., which, if not relieved, gradually weakens and deranges the system, and by sympathy induces those chronic forms of disease. Consumption, Dropsy, Dwspepsa, &c. which either harry them to an early grave or render them invalids for life. Many of the fairest and loveliest of creation, at that age when the bud was just bursting into bloom, have withered and died from the effects of obstruction, and the want of a remedy to assist nature at that eventful period.
